How to Download on an iPhone/iPad:

1) Visit the App Store and download the free BookPlayer app.

2) Purchase the talk via the Association website. From the website Purchase Confirmation page or confirmation email, click the **M4B** download option. The audiobook will automatically download to your phone. (TIP: Be sure to connect to high-speed WiFi to speed the process and prevent over-use of cell phone data.)

3) Once the audiobook is downloaded, click on "Open in BookPlayer." The file will then remain stored in the app.
